SUMMARY

Dedicated and enthusiastic learner focusing on Java backend development. Interested in building real-world applications and continuously improving skills in Java, SQL, and backend technologies.

SKILLS

Backend: Java · Spring Boot (Learning) · REST APIs (Learning) · Hibernate (Learning)

Database: MySQL · SQL

Frontend: HTML · CSS · JavaScript

Tools: Git · GitHub · Postman

Core Concepts: OOP · DSA Fundamentals

EDUCATION

Graduation

Bachelor of Technology in Computer Science & Engineering (Data Science)

Ajay Kumar Garg Engineering College, Ghaziabad, Uttar Pradesh

Graduation Year: 2024

Higher Secondary (Class XII)

RKIC Umersenda, Uttar Pradesh

Year of Completion: 2020

PROJECTS

• NewBuy – Online Grocery Selling Project (*Java, MySQL, JDBC, HTML, CSS, JavaScript, OOP*)

- Full-stack grocery shopping platform allowing users to view products, add to cart, and place orders
- Designed normalized MySQL database for managing product inventory & order lifecycle

• Student Library Management System (*Java, MySQL, JDBC, OOP*)

- Manages books, students, book issue & return operations– CRUD operations using JDBC with validations
- Used OOP concepts for better maintainability & scalability

Training

Java Backend Development — AccioJob (Ongoing)

Technologies: Java, Spring Boot, REST APIs, MySQL, DSA Fundamentals
